※ Revision of Fees Effective April 1, 2027
Fees have been revised to secure the personnel necessary for childcare and to address increases in costs associated with providing meals and childcare. This revision is intended to maintain and improve a safe, high-quality childcare environment for children and to ensure stable and sustainable operations.
※ The above fees also apply to children who have been enrolled since the previous school year.
However, for certain age groups of children who have been enrolled since the previous school year, transitional measures will apply only for the 2027 school year.
